chapter 4
My Life

Mn.
Hm?
Knock
Knock
knock knock
Nozomi! You awake?
I'm coming in!
← Made a spare key.
!
WOW! ♡
Oh no!
Sorry, Annie. I overslept.
And we even agreed to go to the store together today!

I'll be ready in a moment!
Didn't you say you wouldn't let her use the bed anymore?
oh my Since when?
What's that got to do with you, Annie?!
heheh Sure, nothing to do with me.
You've done nothing but work every day.
Since you're here, wanna go out somewhere?
They haven't gone on a honeymoon trip yet.
We should've gone snorkeling while your parents were here.
Wouldn't they prefer being by themselves?
pout
But...
Here's rent.
Oh...
I really wanted to save up a little more before doing this, but...

You've been letting me stay this whole time.
I didn't have much on hand.
So I needed to work for it.
Huh?
You didn't have to do this. I make enough from my job already.
That's not the point.
ぽつん…
Sorry for the wait, Annie!
Well, see you, Kiara.
It's your day off, so rest up.
…
ガッ!

Nozomi!
Eh!?
Hey...
Huh?
Kiara?
What?

Annie this, Annie that. Do you really love me?!
...
Wait...
Hold up! I said I'd be going with Annie to the market...
...But you're the one who told me to help at her store...
Ahh! That's not it!
huh?
ugh...

The beach!
T-That's right, the beach!
You never got the proper chance to swim here,
so today we're at the beach, Nozomi!
カポ
カポ

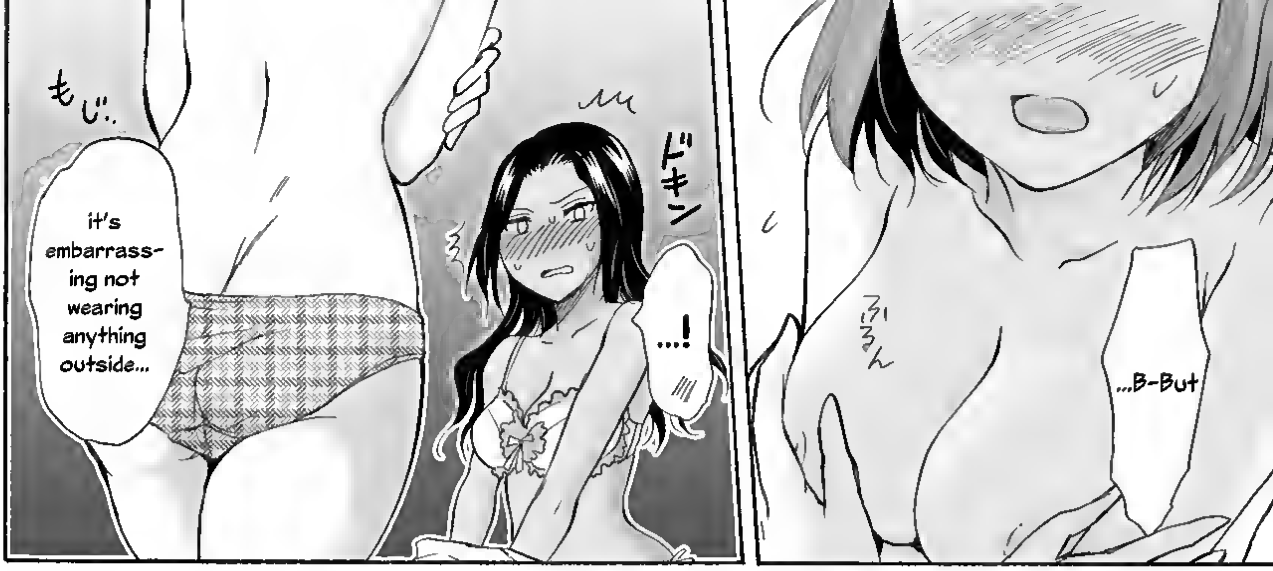
that this was a date...
ドキ
It's not!
We're just here to swim!
キュ
くすっ

どぉぉん
We're climbing this!?
You're dragging me around again...
But...
Wha?
hup
It's easy.
Your skirt

It's my secret beach I've played in since childhood.
Wow! It's totally different from the view we get at home!
Too bad I don't have a swimsuit... haha
SLIP
Just strip and swim.
A-bra underneath?!
Kiara!
Don't worry! Nobody comes here.
kyahh!?



もじ..
it's embarrassing not wearing anything outside...

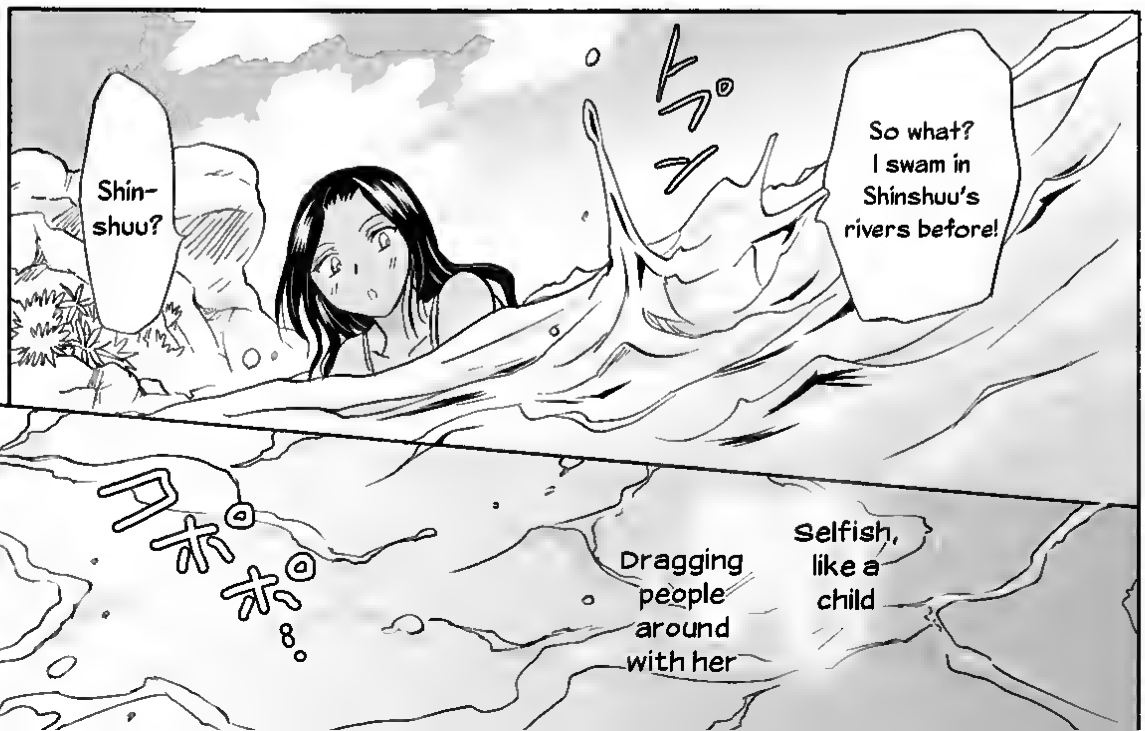
She seems slow, but this is her backyard.
She's wearing a bra herself
That scream! "Eeeek!" ahahaha
aha haha



Shin-shuu?
So what? I swam in Shinshuu's rivers before!
Selfish, like a child
Dragging people around with her

But it's fun.
...I don't want to think about it
how I have to leave...
...Hey
Nozomi...

You don't have to pay rent.
You and I, we're...
...
That is...
um...
...
Lovers?
why'd you say it!
why did you have to say it?!
わーん
S-Sorry!
I'm gonna drown, Kiara...

Thank you
for coming after me.
Kiss
I love you, Nozomi.

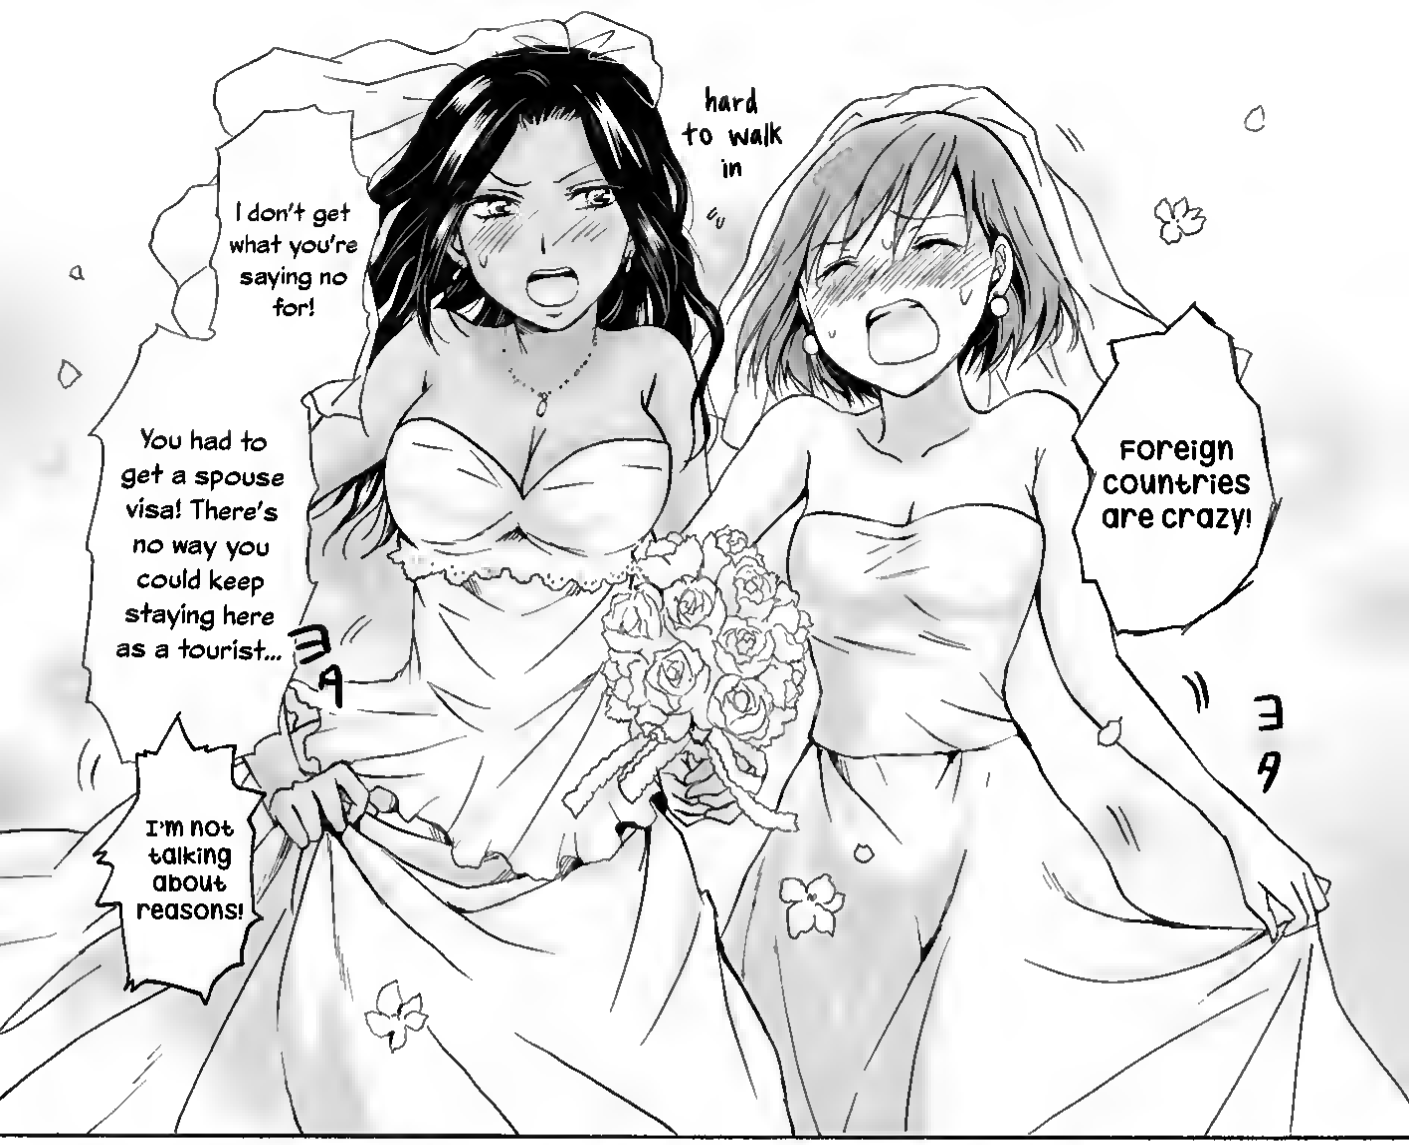
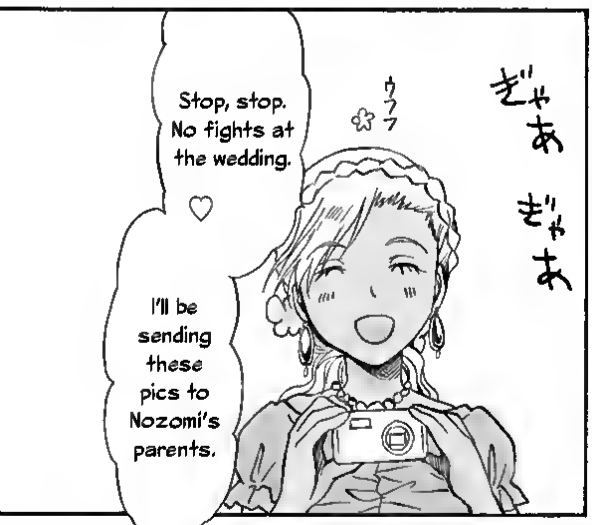
Hey, Nozomi. I don't think
you're talking about splitting up right after we did that?
we should be lovers.
huh?
...huh?

ゴォーン
ゴォーン
Hey...wait...
we're having a wedding!?



I don't get what you're saying no for!
hard to walk in
You had to get a spouse visa! There's no way you could keep staying here as a tourist...
Foreign countries are crazy!
I'm not talking about reasons!



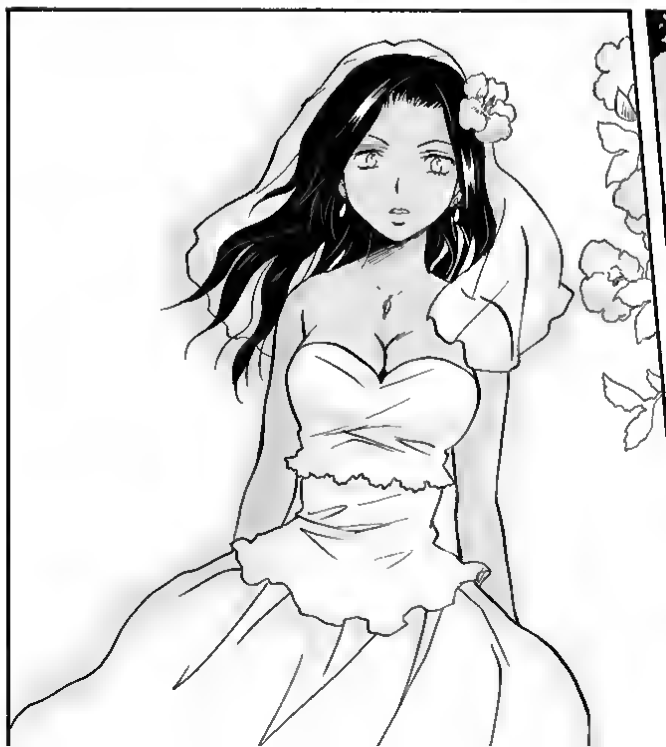
Stop, stop. No fights at the wedding.
I'll be sending these pics to Nozomi's parents.

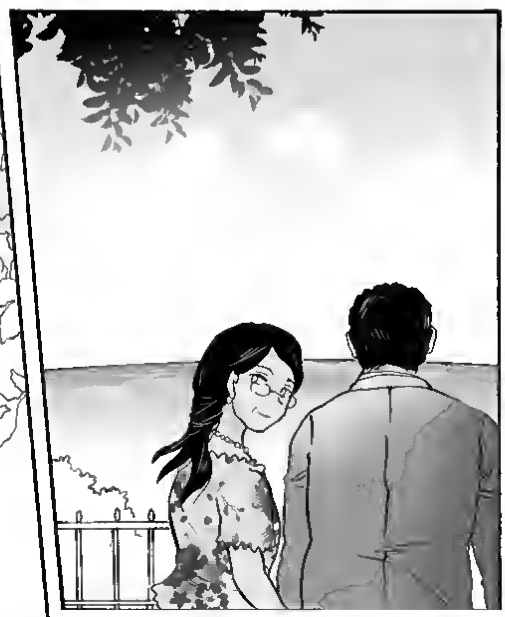
It's not! They're here to pay respects!
It's embarrassing!
Look at all the locals and tourists who gathered here!
Japanese are so hard to deal with!

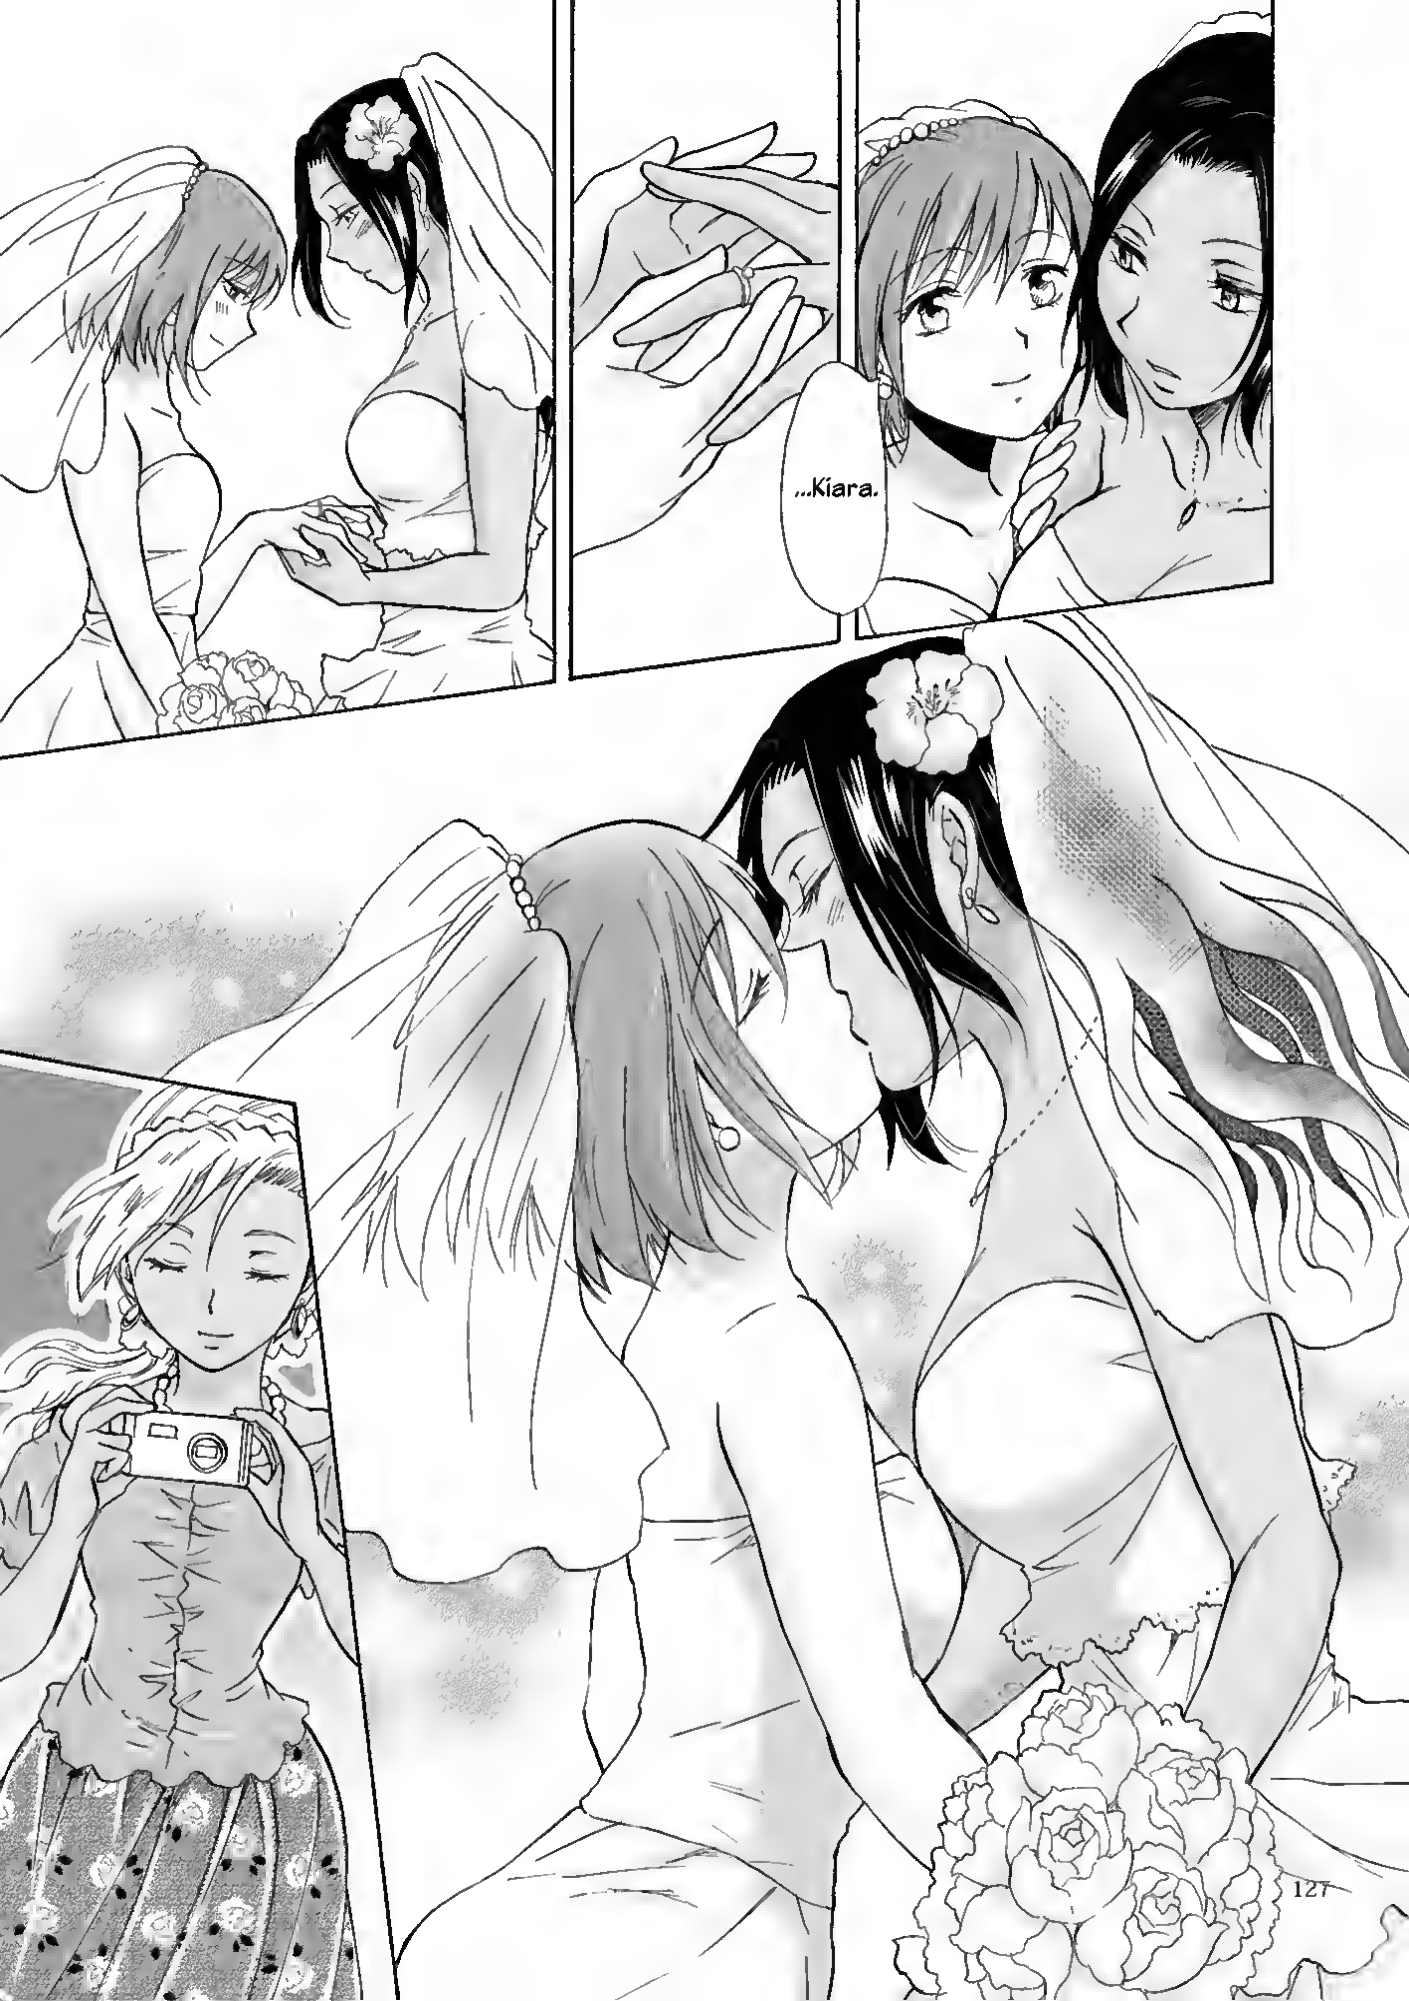
...Kiara!
It's okay, I invited them.
...Are you really putting your names together in the registry?
I...
I'm

I...
...I'm
going to...
live...
with Nozomi, together, on this island.
So...
...
I'm sorry. For not being able to...
fulfill your expectations...

プチッ

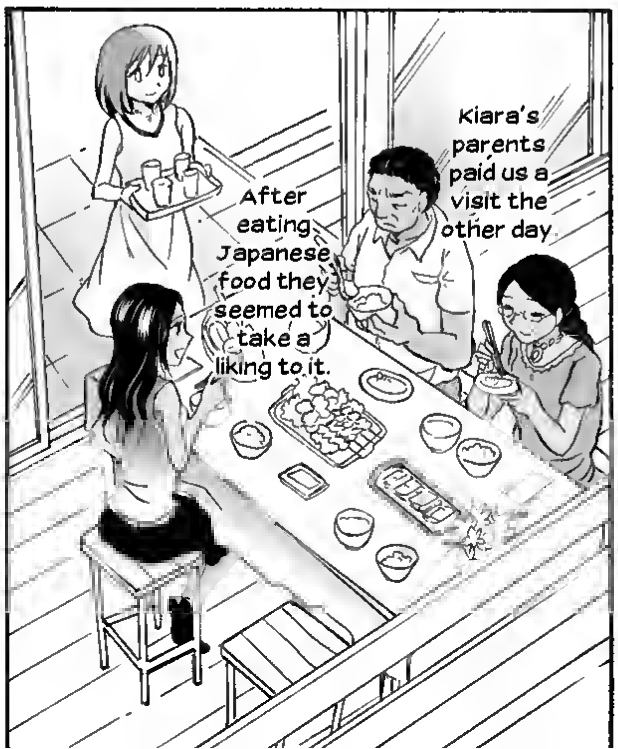




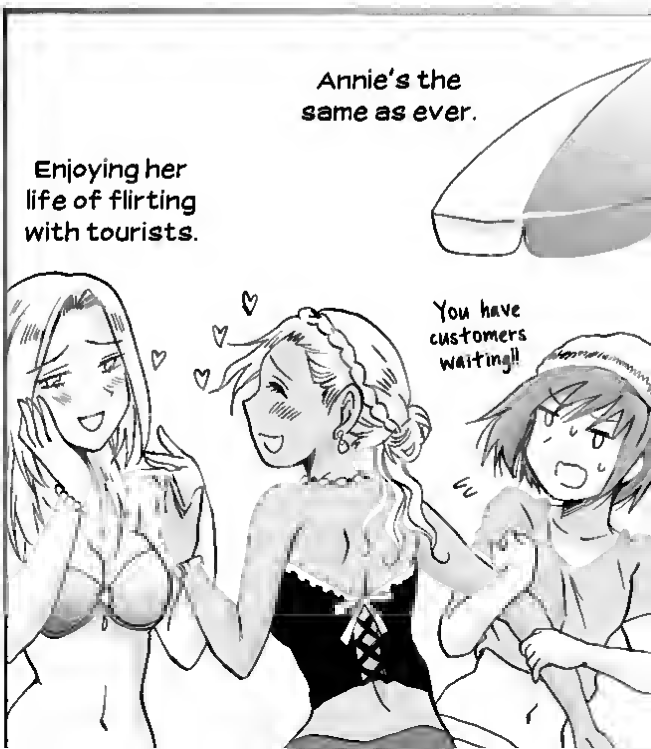


...Kiara.

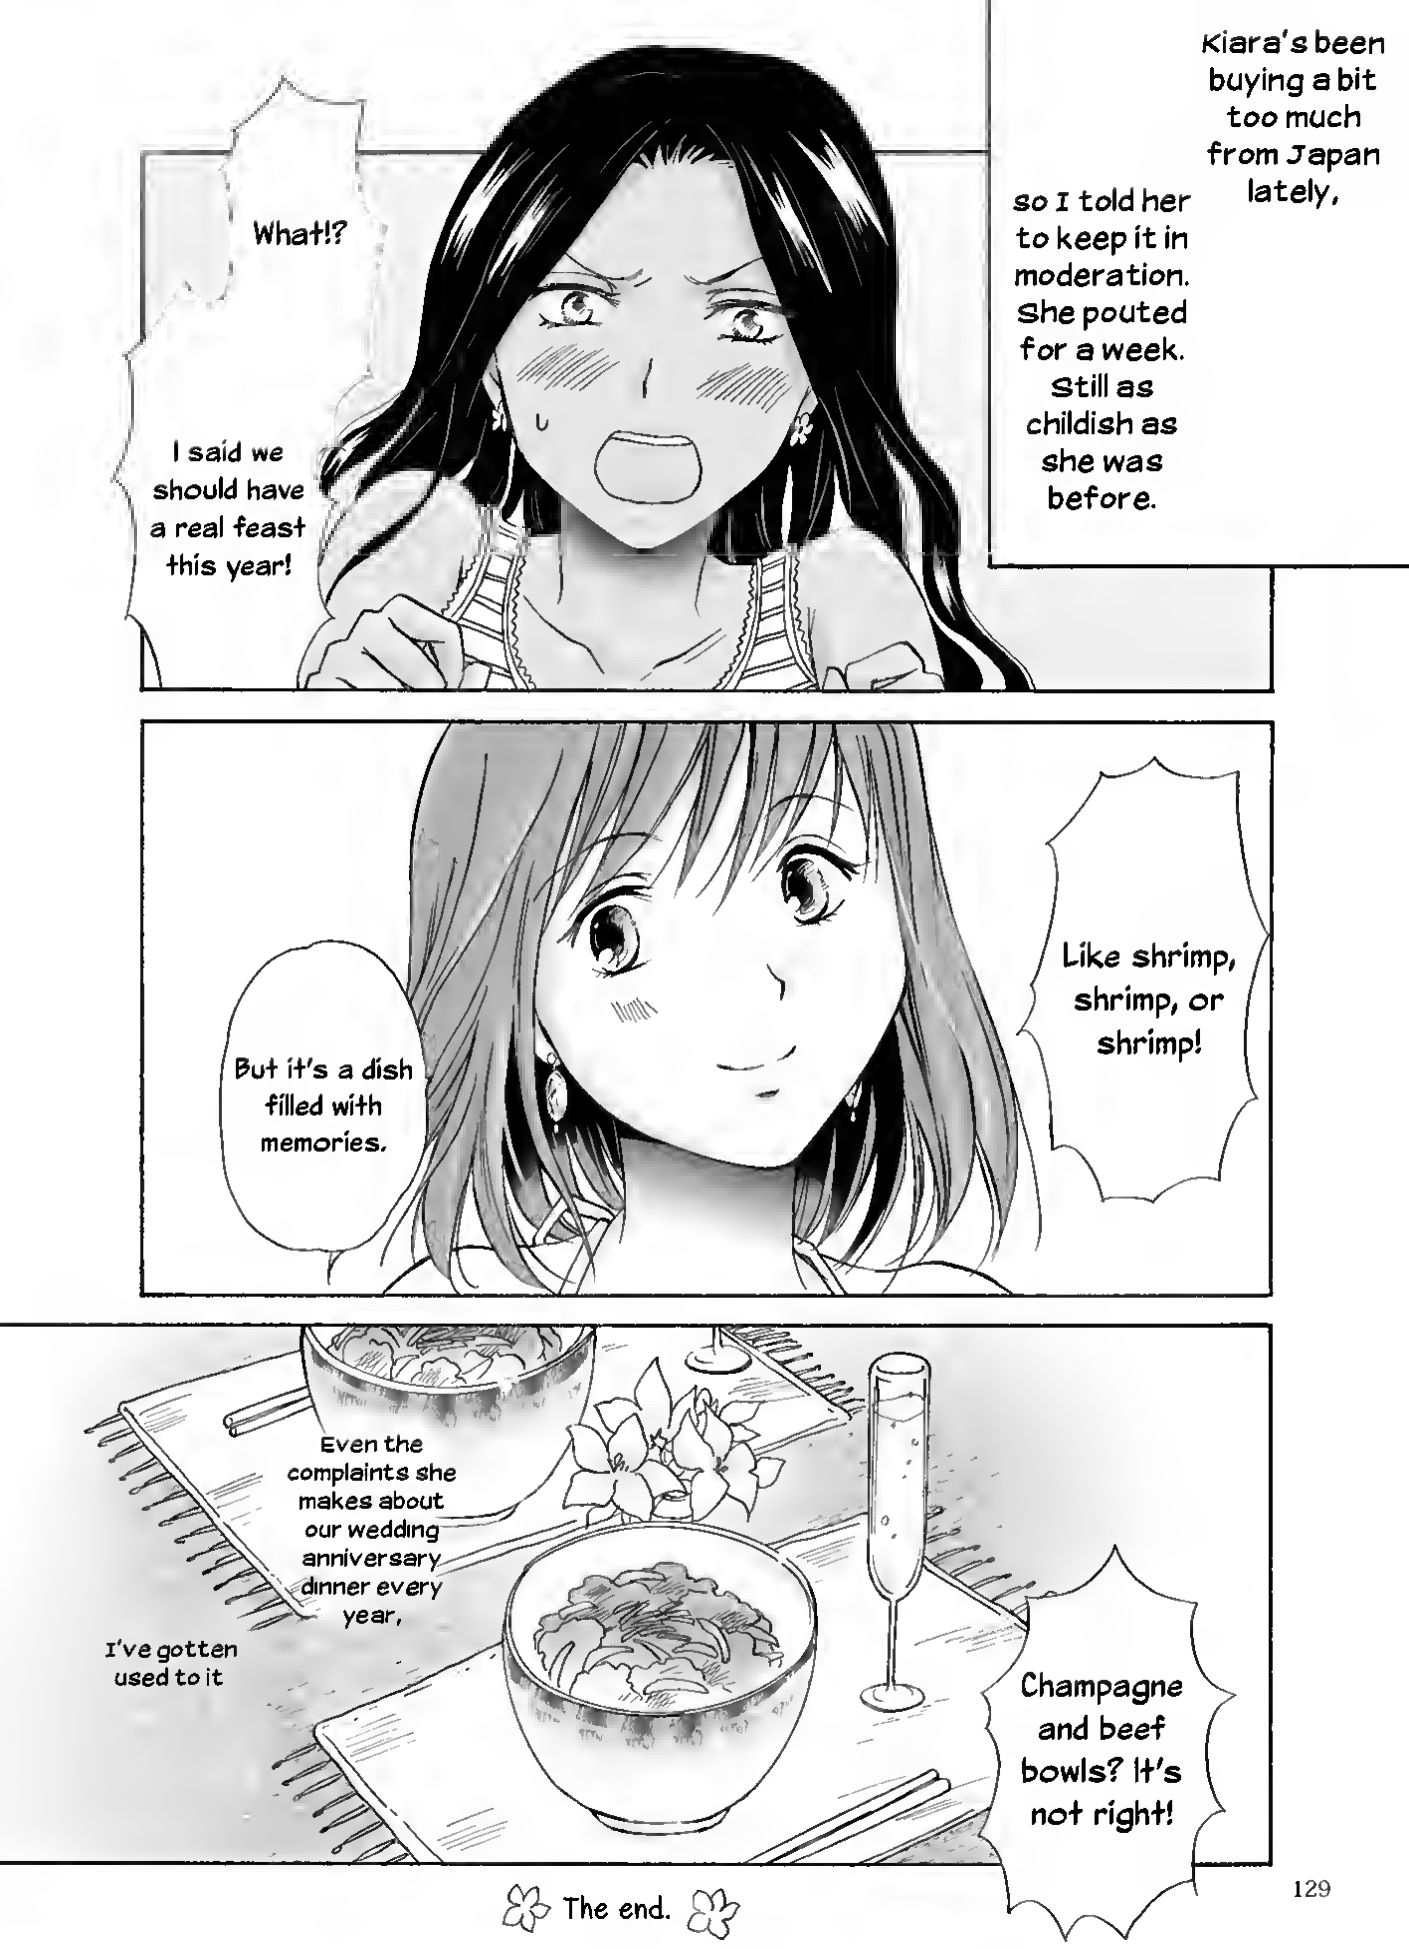
CLICK
And so



Kiara's parents paid us a visit the other day.
After eating Japanese food they seemed to take a liking to it.



Annie's the same as ever.
Enjoying her life of flirting with tourists.
You have customers waiting!!



Kiara's been buying a bit too much from Japan lately,
so I told her to keep it in moderation. She pouted for a week. Still as childish as she was before.
What!?
I said we should have a real feast this year!
Like shrimp, shrimp, or shrimp!
But it's a dish filled with memories.
Even the complaints she makes about our wedding anniversary dinner every year,
I've gotten used to it
Champagne and beef bowls? It's not right!

The end.

The posters that made an appearance in their story.
I tried for a "Japan, but slightly off" sort of feel.
If they looked a bit shady it was intentional.

後書き

There weren't too many sex scenes for an adult-only work. Sorry!
I couldn't go anywhere this summer because I was so busy, so "at least I can try a nice vacation-y mood in a manga yeah, the dreamed-of southern country resort! A resort so beautiful as to be from a painting, white sandy beaches, a fun yuri story full of laughs and giggles! I want to draw that!" I rushed right into it, but when I started drawing for real it took super long. Because I was so busy working on the manuscript I couldn't go anywhere yet again in this endless spiral. How did this happen?

The theme was "family". Using that as the theme in a work with same-sex love, with sex to boot, seemed pretty taboo to me, but in the process of writing the script I thought it might work. It's a story about the family you make by yourself, beyond those that you've had since you were born.

Kiara made a lot of weird faces, so it was a lot of fun drawing her.
I haven't gone to Akiba in a while, so I want to pay a visit.
The story's set on a fictional island country. "Little Figures" doesn't exist in real life.

Thank you very much for reading.
